Performance record: _____

- The subject-specific equivalence of the examination or course performance must be certified by subject examiners, usually those responsible for the module (see next page).

- A subject examination is also carried out for the recognition of achievements not included in the curriculum.

The application must then be submitted to the Applied Geosciences Examination Board.

I confirm the accuracy of the information on this page:

Place, Date

Signature applicant

**Application for recognition of achievements within and outside the education system
 for the study program Applied Geosciences**

Bachelor

Master

To be filled in by the applicant: Recognition as graded examination <input type="checkbox"/> ungraded coursework <input type="checkbox"/>	Hours per week	CP/ECTS	Date of the exam- ination/ ungra- ded coursework	Grade
External achievement (Title) _____				
Achievements to be recognized at KIT: Code of module or partial achievement: _____ Title German: _____ Title English: _____ To be recognized in the subject (see module hand- book): _____				

Equivalence assessment / Statement by the responsible examiner of the subject

I recommend the recognition with grade with following grade _____
(Generally, the SPO intends the recognition with a grade if the grading systems are comparable.)

An equivalence according to § 35 (1) LHG could not be determined because the differences
 between the aquired competencies and the local achievement are significant.
